# Trigg's Tips

## How to Play

Trigg's Tips is a game that is played with a deck of cards. The deck is shuffled and dealt into two piles. The player who is dealt the top card of the first pile starts the game. The player then draws a card from the top of the first pile and places it on top of the second pile. The player then draws a card from the top of the second pile and places it on top of the first pile. This process is repeated until the deck is empty.

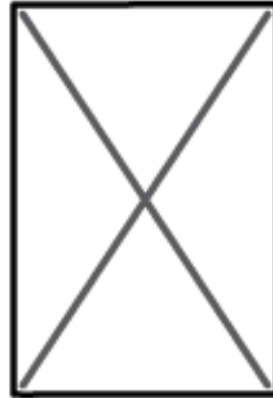

Start

# Oops

Let's have a look

$$7 \times 4 = 28$$

OK

# Trigg says...

You smashed it!
