CREATE TABLES ARRAY

Multiply
- Should create object 11x9
- Array length should equal 12

Minus
- Array length should equal 12
- Should create object 7-2

Divide
- Array length should equal 12
- Should create object 144/12

Plus
- Should create object 1+1
- Array length should equal 12

FILL TODO ARRAY
- Array objects are not sequential- IDs
- Array length should equal 12
- Array object is unchanged- 1+ [6]

MOVE SUM TO REVISE ARRAY
- Index 0 does not get added to reviseArray- count:2
- Index 0 gets added to reviseArray- count:4
- Index 0 gets added to reviseArray- count:3

APPEND SUM TO END TODO
- Index 0 gets added to end of array

CHECK ANSWER CORRECT
- sumTry equals answer- return true
- sumTry does not equal answer- return false

CREATE REVISE STRING 4 CANVAS REPORT
- String shows tables to revise
- String says no tables to revise

REMOVE SUM FROM START TODO
- Index 0 gets removed from array

INCREMENT TODO COUNT
- Other indices should be unaffected
- Index 0 should increment by 1
